Summary

Full-Stack Developer with experience in AI, backend, and modern web technologies, building scalable and user-focused applications with a strong interest in problem-solving, clean development, and developer communities.

Education

Dr. BC. Roy Engineering College

B. Tech in Computer Science & Engineering (CGPA: 8.45 till 5th Sem)

Expected August 2027

Durgapur, West Bengal

Modern High School

Higher Secondary (WBCHSE) – Percentage – 77.8%

2021 - 2023

Durgapur, West Bengal

Modern High School

Secondary (WBBSE) - Percentage - 88%

2019 - 2021

Durgapur, West Bengal

Skills

- **Languages:** JavaScript, Python, Java, C, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, Vite
- **Backend & Databases:** Flask, Firebase, REST APIs, Node.js, MySQL
- **Tools & Platforms:** Postman, Git/GitHub, Vercel, Render, Docker

Project Work

1. WrathOps | Next.js, Flask, Gemini API, CLI, Webhooks

- Prevented accidental exposure of sensitive credentials by ~90% through a real-time pre-commit scanning CLI that identifies API keys and secrets using regex and ML-driven detection models.
- Improved security incident response efficiency by ~80% by automating secret remediation workflows, including commit cleanup, credential removal, and environment-variable based secret migration via auto-generated pull requests.

2. TARK | Next.js, Flask, Gemini API, Smolify, Multi-Agent Systems, REST APIs

- Built a multi-agent system to analyze scam inputs (messages, screenshots, call transcripts) and generate structured, evidence-backed analysis outputs
- Designed a privacy-first preprocessing layer using Smolify to locally mask sensitive data before any external or AI-based processing

3. TrustBridge | React, Ethers.js, Firebase, Onchainkit, Cloudinary

- Enabled credit assessment for unbanked users through an AI-driven TrustScore system using identity and financial document analysis.
- Implemented a blockchain-backed lending pipeline with crypto wallet integration, ensuring transparent and secure peer-to-peer transactions.

Experience

SkillCraft Technology

Sept 2025 – Oct 2025

Web Developer Intern

Remote

- Worked on project-based solutions featuring task workflows, form validation, and interactive UI components, alongside practical exposure to Git version control, debugging practices, and production deployment pipelines.

GDG On Campus BCREC

Sept 2025 - Present

Lead

BCREC, DURGAPUR

- Led a student developer community of 1000+ members by organizing technical workshops and coding sessions and hands-on events
- Coordinated community initiatives, technical events, and peer mentoring programs, increasing student engagement and fostering a strong developer culture across campus.

Achievements and Certifications

- Actively participated in 5+ national-level hackathons including Smart India Hackathon, Bharatiya Antariksh Hackathon, Walmart Sparkathon, Google Solution Challenge and 8+ regional hackathons.
- Contributed to multiple Open-Source programs like Winter of Code, Apertre, JWOC collaborating on real-world repos.
